Hi Interior Design students. My name is Bernadette Mirro and I am your library liaison. I’ve created the website you are viewing this video on as a way to get you resources specific to your program. You can see the resources are divided into categories like databases, books, eBooks and citation help. The last tab is always the help tab. That’s where you can find my contact information, you can schedule a research appointment with me, give me a call or send me an email me. If you’re a graduate student or an undergraduate student with a nontraditional schedule we can meet in the early evenings or we can Skype online. Anyway the bottom line is I am here to help you with your research throughout your career at Marymount. So don’t hesitate to get in touch. I hope to see you around the library.
